Architecture for Modern Data Center Workloads

Go BIG, Go EPYC with AMD Lenovo Servers

Lenovo

Lenovo ThinkSystem servers offer world class AMD EPYC™ performance and I/O connectivity allowing for optimal infrastructure solutions to reduce TCO and maximize ROI of IT investments.

Supporting up to 32 NVMe drives, 8 GPUs, 64-core CPUs, up to 45% more memory bandwidth, and PCIe Gen 4 they are ready to deploy key workloads with peak efficiency such as:

- Video surveillance
- Virtual Desktop Infrastructure (VDI)
- Big Data
- Artificial Intelligence
- High Performance Computing (HPC)
- Software Defined Storage applications

Take advantage of the special offers available from Lenovo for:

- **SMB Customers**
- **1st AMD Purchase - valid for new resellers and new end customers**
- **Solutions offering on AMD platform**

Contact your Local RR manager today for your tailored special offers.

ThinkSystem | **AMD EPYC**
